PROFESSIONAL SUMMARY

Detail-oriented Software Developer with hands-on experience building backend web applications, relational database schemas, and RESTful APIs using Python and Django. Proven record of optimizing query performance and deploying scalable features through Git version control workflows.

TECHNICAL SKILLS

Languages:	Python, SQL, JavaScript, HTML5, CSS3
Frameworks:	Django, Django REST Framework, Flask
Databases:	MySQL, PostgreSQL, SQLite
Tools & Versioning:	Git, GitHub, Linux, Postman, VS Code

KEY PROJECTS & EXPERIENCE

E-Commerce Backend API

2023 – Present

Python / Django / MySQL

- Architected RESTful APIs using Django REST Framework for user authentication, product catalogs, and order handling.
- Designed MySQL relational database tables and structured indexes, reducing API endpoint response latencies.
- Managed source control workflows using Git, reviewing code contributions and maintaining CI/CD integration.

Automated Resume Analyzer Platform

2023

Python / SQLite / Django

- Developed backend route handlers to parse uploaded documents and extract structured candidate data.
- Implemented SQL query filters to match candidate technical keywords against target job metrics.

EDUCATION

Bachelor of Science in Computer Science

Graduated 2023

State University

- Relevant Coursework: Data Structures & Algorithms, Database Systems, Web Development, Software Engineering.
